Keyboard shortcuts

Default keys. Your settings may use different ones.

Capture

Start or add a capture	**Option + Shift + F**
Capture the same area again	**Option + Shift + G**

Press F, then drag to select an area. G repeats the last area with no drag.

Mark the capture

Add the next numbered dot (dot tool)	**Click**
Select the dot tool	**C or N**
Select the arrow tool	**A**
Select the box tool	**R**
Select the text tool	**T**
Save and open notes	**Command + S**
Undo / redo a mark (outside text)	**Left / Right arrow**

Escape with no marks copies the image and closes the editor.
With marks, Escape copies the marked image, saves it to the round, and closes.

Answer the note questions

Save the answer and continue	**Return**
Skip the current step	**Escape**
Earlier / later step	**Up / Down arrow**
Previous step, from start of answer	**Left arrow**
Next step, from end of answer	**Right arrow**

During a round

Copy last capture prompt	**Option + Shift + C**
Copy prompt and end round	**Option + Shift + R**
Open round folder	**Option + Shift + O**
End round and copy its prompt	**Option + Shift + E**

Round keys need an active round. Finish a capture before using R or E.
Change keys in Settings > Shortcuts > Nextshot.
